Cook and Hold Control Programming

Affected Products: Cook and hold control, stock code #431007
Affected Serial Range: N/A
Related Issue #: SP2016-005

Issue Description:

For the cook and hold control, base stock code #431007, the below tool may be purchased to power the control for programming purposes. The tool consists of a 120v to 24v AC adaptor with a cook and hold control connector, along with a thermocouple connector with jumper wire. **The tool is \$35 (net price) (stock code 931001).**

Actions Required:

To use the tool:

1. Attach the control connector to the control.
2. Attach the thermocouple connector to the control. The jumper wire should be between points 1 and 2.
3. Plug the tool into a 120v outlet.
4. Use the instructions in Service Bulletin SP2016-005 to change the control programming.
