

Products: SRG-400

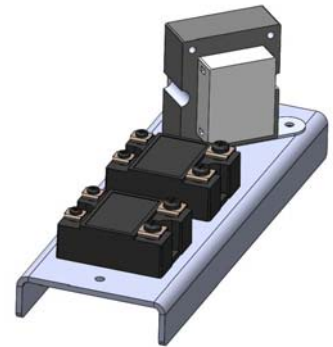

Serial Range: Beginning with G4001002 - Relay board change

Beginning with G4001007 - Terminal block assembly change

Release Date: January 21, 2019

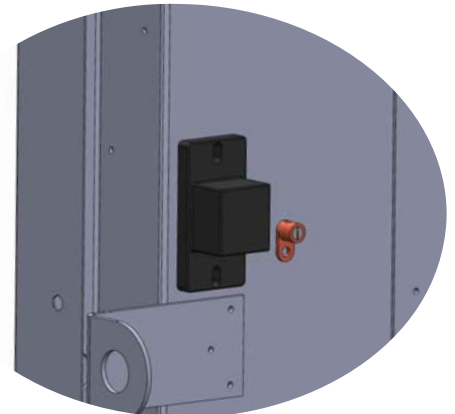

Relay Board (only 120v versions, 230v versions remain the same)

The aluminum relay board is being downsized and will change from part number 421015 to 421007. The construction of the relay board, the location of the relay board, and the relays and transformer will remain the same.

Terminal Block Assembly (only 120v versions, 230v versions will remain the same)

The bracket for the terminal block and ground lug is being eliminated and the terminal block and ground lug will be mounted directly to the service bay liner of the smoker.
